Success. Your bookmark import has begun. You will receive an "Import Completed" email soon.

So if it has been less than a day, please wait until tomorrow before reporting an issue. If you have received an "Import Completed" email and you are not seeing your bookmarks you may have set your imported bookmarks to private, so you will need to be signed in to see them. Otherwise, contact us at via the [Support](#) page and we'll look into the problem.

If we notice a problem with your import and you gave us your email address, we'll send you an email. Otherwise, just sit back, relax, and let us do the heavy lifting as we load your bookmarks into Delicious!
